

# LICENSING MANAGEMENT PLATFORM

Trend Micro's Licensing Management Platform (LMP) for managed service providers (MSPs) is a web-based tool that lets you create and manage your customer licenses for Trend Micro SMB products.

No other security vendor offers MSPs this unique work-reducing, time-saving tool. Our competitors require orders to be placed during business hours and rely on the partner to track expiration dates, send renewal notices, and request license extensions.

LMP can drastically reduce your costs with batch uploads and pre-defined registration keys. At the same time, with LMP's reporting capabilities you can enjoy more efficient billing and auditing.

Also, with LMP our partners can re-brand the platform, the product, and the communication templates available in the solution.

## Advantages

For SMB managed service providers who provide outsourced IT or managed security services to their customers, Trend Micro's secure, web-based licensing management platform:

- Features an easy-to-use, web-based, self-service portal
- Allows for self-provisioning of security product licenses
- Eliminates wait times as LMP is available 24x7x365
- Eliminates the need to keep track of renewals and expiration dates

## Features

- Self-service, anytime license provisioning
- Batch uploads
- Pre-defined registration keys
- Billing reports
- Auditing reports
- Supports auto-synchronization with Worry-Free™ Remote Manager
  - saves the MSP time and money by eliminating the manual process
  - links every new provisioned product with Worry-Free Remote Manager
- Supports Trend Micro™ Hosted Mobile Security solution (future release)

## Trend Micro's MSP Program

Trend Micro offers the most comprehensive solution for Managed Service Providers (MSPs). For an end-to-end solution, we combine this unique self-provisioning licensing management platform with: **1)** our mobile security solutions **2)** our leading endpoint and email security solutions **3)** a centralized multi-tenant management platform. Trend Micro is the only vendor that provides MSP-specific tools such as the Worry-Free Remote Manager and Licensing Management Platform.

## Worry-Free Remote Manager

This secure, hosted web console helps small business resellers increase profitability by reducing the costs of servicing customers as business grows:

- Centrally manage multiple Worry-Free and Hosted Email Security customer accounts from a single web console
- Maintain full customer touch and complete configuration control of customer installations
- Begin immediately by taking advantage of Trend Micro's hosted data center

## System and Network Requirements

- At least 50MB of free disk space on the security server, for the Worry-Free Remote Manager Agent
- Security server must have Worry-Free Business Security Advanced 5.0, Worry-Free Business Security Standard 5.0, Client Server Security for SMB 3.5 or later, or Client Server Messaging Security for SMB 3.5 or later
- Active Internet connection
- Microsoft™ Internet Explorer™ 6, SP1, SP2, and 7
- No pop-up blockers
- Security level for trusted sites set to Medium
- Trusted sites should include the Worry-Free Remote Manager URL

## Local Language Support

Available in 21 languages including Arabic, Chinese (Simplified), Chinese (Traditional), Czech, Danish, Dutch, English (Australia), English (Jamaica), English (United Kingdom), English (United States), French, German, Greek, Hebrew, Italian, Japanese, Korean, Norwegian, Polish, Portuguese, Russian, Spanish (Mexico), Spanish (Spain), Swedish, Thai, Turkish. Both the user interface and reports are localized.

“The ease of administering licenses and 24x7 self-provisioning—along with the excellent threat protection from Worry-Free Business Security Services—has made security almost pure profit within our managed services model.”

Van Heath, IT Technician  
Speros, Savannah, Georgia
