

It's your business.  
It's your reputation.  
Protect your future.

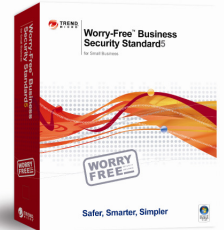

## Upgrade now to Worry-Free Business Security Standard or Advanced

As a current license holder of Client Server Security for SMB or Client Server Messaging Security for SMB you are entitled to upgrade to the newest version of Trend Micro Worry-Free Security Solutions for small business.

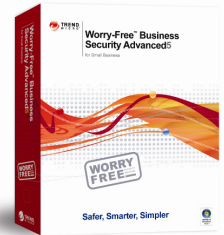

### NEW KEY FEATURES AND BENEFITS

New Features	Benefits
<b>Web Threat Protection</b> Web threat protection prevents exposure without relying on matching each threat to a pattern file. Every day 3 billion websites are tracked, protecting customers from 8-10 million risky websites.	<ul style="list-style-type: none"> <li>Prevents damage from web threats (data theft, damaged PCs) by preventing exposure to infected websites</li> <li>Real-time, constantly updated protection, does not slow down computers</li> </ul>
<b>Worry-Free Location Awareness</b> Automatically changes Worry-Free Security settings on notebooks to set protection for employees inside or outside the office.	<ul style="list-style-type: none"> <li>Provides optimal security based on current environment</li> <li>Minimizes additional effort by auto-configuring settings</li> </ul>
<b>Application Behavior Monitoring</b> Monitors application activities and prevents unauthorized, harmful changes to your computer.	<ul style="list-style-type: none"> <li>Dynamically adapts to new, emerging threats</li> <li>Real-time prevention capabilities use less resources to protect</li> <li>Provides lockdown protection for Intuit® QuickBooks® products</li> </ul>
<b>Multilayer Spam Blocking</b> Blocks spam before it reaches business. Integrated protection layer stops spam by checking IP addresses against Trend Micro's constantly updated database of known spam sources.	<ul style="list-style-type: none"> <li>No wasted network bandwidth clogged with spam</li> <li>No wasted Exchange server performance spent processing spam</li> <li>No wasted disk space used to archive spam</li> </ul>

Owners of Client Server Security for SMB can now upgrade at no cost to Worry-Free Business Security Standard Edition

Owners of Client Server Messaging Security for SMB can now upgrade at no cost to Worry-Free Business Security Advanced Edition

### Advanced Edition now includes InterScan Messaging Hosted Security - Standard

Trend Micro's hosted email security solution blocks spam, viruses, phishing, and other email threats before they reach your network. As a hosted solution, it requires no hardware or software to install and maintain, and helps you reclaim IT staff time, end-user productivity, bandwidth, mail server storage and CPU capacity.

#### Upgrade Process:

If your license expired prior to June 2<sup>nd</sup> 2008 - please renew to receive the latest product

If your license was current on June 2<sup>nd</sup> 2008:

Upgrade your software by downloading the latest version from [www.trendmicro.com](http://www.trendmicro.com) downloads section.

Your current Activation code will work.

To access InterScan Messaging Hosted Security;

1. Visit <http://olr.trendmicro.com/redirect/wfbsupgrade>
2. Enter your CSM SMB Activation code
3. You will receive a IMHS Activation Code and be prompted to activate the service.
